TO WHOM IT MAY CONCERN:

**Re: CanAm Waste Products ("CanAm") – TriSorter Retrofit**

Crossbridge Condominium Services Ltd. is the largest condominium property management company in Ontario, managing over 80,000 condominium units. Having managed MTCC 769 for many years, one of the board's projects was to improve the recycling, organics and garbage facilities for our residents.

The Board had been originally told by other waste equipment companies that an installation would not be possible due to the space and structural limitations in the garbage room. However, CanAm Waste was able to adapt their system design and with their guidance the building rerouted a few sprinkler pipes to create the necessary space for a successful installation. Additionally, from a project management perspective, CanAm Waste was very professional and efficient in dealing with the other trades during this process as we also had our garbage room flooring redone at the same time.

MTCC 769 & Crossbridge Condominium Services felt confident that CanAm was the most capable, had the fairest cost, and in the opinion of other property managers, held the best reputation through their 20+ years of experience in the industry.

The Board and residents are pleased that they can conveniently dispose of their recyclables, organics and garbage materials using the existing chute using the CanAm Waste TriSorter System.

From the sales to the service team, I found CanAm Waste to be very professional and knowledgeable. I would recommend CanAm Waste for any of your waste equipment retrofits and service.

Sincerely,

**CROSSBRIDGE CONDOMINIUM SERVICES**  
**Agents for and on behalf of M.T.C.C. 769 / 775 / 785**
